

After Spray Watering Instructions

Wait 24 Hrs after technician leaves your property to do the following:

In order for the Pre-emergent Herbicide that we applied to your property to work, it needs to be incorporated into the soil by means of rainfall or irrigation within 21 days of application. The pre-emergent herbicide needs $\frac{1}{4}$ to $\frac{1}{2}$ inch of rainfall or the equivalent by means of irrigation. For example, placing a Rain Bird sprinkler for 2 hours on each section would be sufficient.

If you have any questions or concerns please feel free to contact us at (909)947-0548.
